The New Structure of the Senior Classes

This year, we have restructured the senior section of the school to fully utilise the expertise of our dedicated Lendy Park staff. Our goal is to ensure that every student receives the highest quality education possible.

As part of this initiative, we have introduced subject-specialist teachers for Mathematics, English, Science, Social Science, and Shona. This approach enables us to better meet the rigorous demands of the Cambridge curriculum and provide a more focused and effective learning experience for our students.

Additionally, we have established a small, specialized class to support students who need extra assistance, allowing for targeted remediation, including in Shona.

With these improvements, we are confident that we can maximize each child's potential while successfully navigating the challenges of the Cambridge curriculum.
