## Transformation

A transformed school does not happen over night and is not the product of policies and paperwork, vision statements and long term plans. Transformation is guided by these documents but begins with the individuals in the school: staff, parents and children.

If we are to have a transformed school, it begins with transformed people: the way we dress; the way we talk to one another; the way we play sport; the way we do our homework and school work; the way we talk about the school to our friends and family and many more small things we do every day.

Let us transform Lendy Park: one shoelace, one piece of litter, one piece of homework, one conversation, one act of caring, one act of commitment, one game at time.

Transformation requires a conscious decision by every person involved in the school to decide to change one little thing. Eventually these little things will become a mountain and we will have a transformed school.

## Values

Help us transform our school through discussing the school values with your children and how they can apply these in their daily lives. Then, encourage them to do one thing in the day that aligns with those values.

<b>Christ Centred</b>	<b>Integrity</b>
<b>Commitment</b>	<b>Prayerfulness</b>
<b>Compassion</b>	<b>Respect</b>
<b>Excellence</b>	<b>Unity</b>

The focus for the last two weeks has been living a Christ Centred life and what it means on a day to day basis.
