Colossians 3:17

Lendy Park ECD held their first ever inter-school soccer match on Thursday. It was so wonderful to see the true meaning of sport being played out on the field and afterwards. It was not about winning or losing but building friendships and sharing experiences.

The teams were mixed so there was no pressure to win or lose but rather an emphasis on having fun; learning new skills and meeting new people. In the hyper-competitive sporting environment of school sports that now prevails in our country, this morning was very refreshing.

I have been asked why I never post the results of our matches on the newsletter and this is the reason. The emphasis should never be on the result, but the process or else our value is defined by a win or loss record. I am very proud of our sports men and women of Lendy Park School as they shine God's light to the community through their sporting activities.

A big thank you to Peterhouse Nursey School for supporting this idea to build relationships between our children and begin their sporting careers on the right note.

Safety

Last week, our staff received training from MARS on CPR and dealing with choking and drowning.

Thank you to MARS for coming to make our school a safer place.
