Moving Forward in Small Steps: But Moving

Thinking back to last year when we had our Jericho walk, I am amazed at the progress that has been made. The things we were praying about were:

- Another bus; ✓
- A reservoir; ✓
- Refurbish the ablution block; ✓
- Deepen the borehole and
- the new hostels.

The remaining projects include the hostels and the borehole. I extend my heartfelt gratitude for your generous support of these initiatives through the PA fundraising and the levies raised. We also thank God for His provision, even when circumstances seem insurmountable. In addition to completing these projects, we have successfully painted half of the school's exterior. Our new solar system, soon to be operational, will help mitigate the ever-increasing costs of electricity and generator usage. Furthermore, we have successfully planted our Colts rugby field, which, if I may say so, looks magnificent.

The most remarkable achievement, however, is the tremendous support from our parent body. I would like to express special thanks to Mr. Chipanda for the donation of a guard house. The old wooden shack was quite worn, and this new addition will greatly enhance the first impressions of our school.

While there is still much to be done, our small steps, guided by a solid plan and through God's amazing grace, allow our school to continue fulfilling its mission to shine His light on the Marondera community and beyond through the education of our children.
